EDUCATION

TAFE Introduction to Architectural Drafting
N.S.W. Land & Engineering Survey Drafting Certificate.
Associate Diploma in Mathematics and Computing.

EMPLOYMENT

June 1994

CAD Draftsperson

Preparation of maps and drawings, utilising CAD methods, associated with reports including environmental impact statements, environmental management plans, land assessment and remediation projects and wastewater treatment and disposal projects for several environmental engineering consultants. The work entails the creation and reproduction of the figures associated with these reports based on a variety of data supplied. This data may be in the form of sketches, spread-sheets, or other topographic or cadastral data in an electronic form.

Dec 1991

CAD Operator/Programmer

Generation of architectural working drawings, fabrication drawings and perspective illustrations using Autocad for
Teaching the use of and customisation of Autocad for mapping and civil engineering applications and preparation of associated documentation.
Programming mapping applications in Autolisp for a mining company.
Supervision of a team responsible for the transfer of manual records to digital form for the creation of a GIS for a gas utility.

May 1989 - Dec 1991

Nu-Steel Pty. Ltd.
CAD Operator/Programmer

Generation of architectural working drawings, fabrication drawings and perspective illustrations for kit home builders using Autocad.
Client liaison, training and writing documentation for the support of users.

The Gap QLD 4061

April 1988 - Aug 1988

Schiffko Aust. Pty. Ltd.
CAD Bureau Consultant

Supervision of a CAD bureau utilising Computervision and Caddsmen software together with the associated plotting and printing facilities. Duties included the following :

- Preparation of training courses
- Client liaison and office administration
- Programming in Fortran and Pascal.

Bureau work comprised mapping, engineering and architectural applications including the following :-

- Geographic Information Systems.
- Technical animation.
- Cadastral mapping.

July 1981 - April 1988

Evans Deakin Industries Ltd.
CAD Operator
System Manager

CAD Operator and System Manager of a CAD Bureau utilising a Computervision turnkey system, an IBM 4361 mainframe and PC computers.

Duties included the following :-

- Data capture and digitising
- Analysis, development, testing and maintenance of software.
- Preparation of operator documentation and training.
- Co-ordination of client demonstrations.
- Client liaison and office administration.
- Liaison with vendors regarding hardware maintenance.

Bureau work comprised mapping, engineering and 3D drafting applications including the following :-

- Cadastral mapping.
- Geographic Information Systems.
- Structural engineering.
- Geophysical mapping.
- Topographic mapping.
- Three dimensional architectural and geological modelling.
- Technical illustration.

June 1975 - July 1981
Draftsman

Australian Survey Office

Production of engineering, cadastral, topographic and hydrographic plans and associated computations.

Jan 1974 - March 1975

Alan J. Fox Pty. Ltd.
Draftsman

Preparation of cadastral and detail topographic maps and plans associated with re-zoning applications and land sub-division projects.

Jan 1967 - Feb 1973

Department of Civil Aviation
Draftsman

Production of engineering plans and maps including aeronautical navigation charts.
